*“Training is neither an art, nor a skill.  
It is a passion that is contagious”*

# TRAIN THE TRAINER

Spending three days with us will help you to transition from the traditional lecture-based, instructor-centered training, to a dynamic, participant-centered, multi-sensory learning format that will engage participants in your program.

Our approach to this program is about inspiring and motivating trainers, giving them simple usable skills, and making the training room a really fun and exciting place to be.

# TRAIN THE TRAINER

At this program you will learn:

- Adult Learning Expectations
- Adapt your style and material to suit the situation
- Training Design and Delivery
- Meet your trainees needs and expectations
- Handle your trainees anxieties and nervousness
- Make learning process exciting and creative

# TRAIN THE TRAINER

No matter what kind of training you do - Sales, IT skills, Financial Planning, Interpersonal Skills, Shop Floor Skills - you need to be well prepared and able to handle whatever happens in the training room with panache and professionalism.

We will help you to build your confidence to handle whatever is thrown at you in a training session.
